

# LIGHT ON WATER "2 PAWS UP!" SCRATCH PAD

Make some **\$cratch**  
for the cats!

**10% of net profits go to  
Cat Rescue Groups**

(more details on back of this package)

Christopher Cantin drew his inspiration for his "Light on Water" Series from the famous 1950's photographer, Ralph Eugene Meatyard. His technique was to shoot the sun on rivers and streams with black and white film.

Christopher took this image concept to the next level in 2018 by using colored LED lights on water in multiple environments. The handheld long exposure, movement from the water, and the vibrant colors create these intriguingly unique images.

His twin brother, Chris The Cat, will continue to develop scratch pads and other unique items utilizing his patterns. Together they will make some scratch to help homeless cats!

#1 Worldwide  
Made in the USA  
Handcrafted Cat Products!

MADE IN USA
